Behind The Scenes....Isn't that the company that caters to the Olympic Games? Yes! And we look forward to serving thousands of guests during the Beijing 2008 Games, but we love our San Diego community and have been catering to the corporate, production and broadcast industries here for over 17 years!

Behind The Scenes (BTS) exhibits an amazing range of catering skills and options. On any given day, you may find them serving an intimate dinner and scotch tasting at a La Jolla private home while other crews are servicing the Taste of Lexus marketing tour in 14 major cities across America. In downtown San Diego, BTS is an on-going catering partner to local organizations such as the Symphony Pops. When the Red Bull Air Show came to town last fall, Behind The Scenes was the exclusive

caterer and provided a "Top Gun" food and beverage program throughout the Air Race weekend. BTS provides catering and event management to corporate and social clients, and is a preferred caterer at several of San Diego's most attractive venues including: Ofila Winery, the San Diego Wine and Culinary Center, the USS Midway, the Darlington House and the museums of Balboa Park.

In the North County, Behind The Scenes also operates an à la carte restaurant, wine bar and retail wine store named Tastes. Located in downtown Encinitas, Tastes provides corporate clients with exclusive sommelier and wine maker dinners and is available as a venue for private events. Chef and owner Sean Fisher creates exquisite menus paired with fine wines which he personally presents and describes as the evening progresses. These hand-crafted dinners are a unique idea for a company celebration or to entertain clients, especially out-of-town clients, who enjoy a California-style dining and wine experience.

The range of Behind The Scenes' capabilities extends even further to the diversity of the their management and sales team. Members of BTS have overseen operations at World Fairs, catered the G8 Summit and developed the event program for venues such as Top of the Rock. There is no event that BTS cannot accomplish and the combined experiences of the BTS team have made them San Diego's top caterer, exhibiting superior levels of creativity and flexibility – two prerequisites that mark an extraordinary event. BTS possesses the creativity to develop menus and events that are unique, memorable and meet hospitality goals and the flexibility needed to let clients imagine an event and watch it become reality. From the planning stages to the execution of a flawless event, the BTS team offers clients original ideas, professional guidance and personalized service.
